

# Touch The Future

# 4K

## G-Touch® 4K Plus Range

Genee are always working hard to revolutionise board and meeting rooms, the stunning new 4K Plus Range is no exception.

4K technology provides the highest quality images available and provides users with ultra-high-definition quality, future-proofing any investment.

The G-Touch® 4K Plus Range has been designed with an eye to the future in mind and offers front-facing speakers, 20-point touch and ease of use with the simple front-facing and side-facing buttons and connection ports which allow for devices to be connected via a range of different input choices.

With the crisp presentation display, it comes complete with an Android operating system and the ability to download apps via the Genee App Store. A G-Touch® 4K Plus Touch screen is a powerful presentation tool with the ability to make presentations come to life.

With the addition of a web camera, Skype for Business and Window 365, The 4K Plus Range will be a revolutionary addition to any business environment, enabling presenter and audience interaction and collaboration. Available in 3 sizes: 65", 75" and 86".

### Key Features & Benefits

#### Spark II Software

The ultimate presentation software, uniquely designed for 4K screens and is free with our Genee screens.

#### Project Flow Software

Encourages collaboration and enables the presenter to gain live instant feedback during a presentation. 90 day free trial.

#### Front Facing Speakers

The speakers are front facing to maximise the output of sound projected.

#### Connection & Bezels

Easily accessible connection ports and 4 section bezels to enable in situ repairs without having to return to base.

#### Built-In Android/ Optional Upgradeable Built-In PC

The Built-In Android and Wi-Fi provides the user with a range of built in Apps with further App downloads available from Genee App Store.

#### Multi-Touch

With multi-touch technology several staff are able to work and collaborate on the screen at once.

#### Image Clarity

Provides the highest quality images and gives users ultra-high definition quality, future-proofing any office.
